

- Electric boosted solar solutions designed in Australia for Australian conditions.
- Energy saving with high performance solar collectors as standard.
- 4mm toughened glass solar collectors - hail resistant.
- Automatic boost when sun doesn't shine.
- Solarpower logic - ensures maximum solar benefit.
- Cyclone mounting and frost protection kits available.
- Tank collector warranty 5 Years.\*
- Eligible for RECs and State/Federal Rebates.
- Standard valve kit included.

Thermasun electric boosted solar water heaters are specifically designed to provide maximum solar benefit and help reduce spiralling energy costs. Thermasun water heaters are fully approved to the highest Australian standards.

Solar Collector Details		
Collector Size	mm	2000 x 1000
Aperture Size	mm <sup>2</sup>	2.0
Collector Weight	kg	37

Maximum number of persons guide is indicative only and based on connection to continuous tariff. Note that water usage changes from person to person and household to household. Appliances should each be treated as one extra person. Financial savings will vary depending on which Thermasun unit is installed, orientation and inclination of solar collectors, type of water heater being replaced and tariff. All information contained herein is correct at time of printing and subject to change without notice.
